Director of Engineering & Computer Science

A Special Note to Our Hornets

Hello Hornets!

Finals are coming up, and others it will be their graduation and for that I want to say best of luck in your projects, exams, finals, and even life after graduation, for some everything is set and ready while others still live in uncertainty but do know that regardless of which one of the two cases you are in, you have worked hard and far and you will be able to achieve more successes hopefully in the coming years, you just need to hold into hope.

Thank you and as always, STINGERS UP!

Internal Committee Updates

Memorial Scholarships

Nov 3rd 2023 Memorial Scholarship Committee where I graded more than 100 essays in total and across different criteria and based on the scholarships, missed 1 essay by mistake but deduced that the result wouldn't affect the finalist list regardless-COMPLETED

University Committee Updates
