A Special Note to Our Hornets

Hi Hornets!

As I wrap up my term, I'm proud to say that I've almost fulfilled every commitment I made to students when I was elected. For the ones that couldn't be fulfilled, it was often due to circumstances beyond my control, but I made every effort to address them, which I consider a success in initiating dialogue with campus partners. Throughout my tenure, I've come to understand the necessity, albeit sometimes frustrating, of bureaucracy. It serves a purpose in certain situations while posing challenges in others.

I've also gained a deeper appreciation for being part of Sac State and the invaluable presence of ASI. Our campus's diversity is a constant source of inspiration and learning, reminding me of the richness that comes from embracing different perspectives, it is with a heavy heart that I start preparing my good bye's to colleague's, friends, and students but alas they are inevitable, thank you for giving me such honor to serve.

Best,

Hashem Jaber.
