A Special Note to Our Hornets

Dear Hornets,

Student advocacy has been a huge passion of mine because I understand what it is to struggle. I am a daughter of parents who did not have the opportunity to pursue higher education. I came from a low income background where I didn't even think college was an option for me. I came to this campus not knowing anyone, and seven hours from what I call home. Starting at Sac State, I knew I wanted to be a student leader. I knew that I wanted to be an example for other Latinas and show them that it is possible to be in these spaces and make our voices heard. My advocacy is not just for the students that I have been able to serve in my time with ASI, but for future generations of students who are coming to Sac State or other institutions of higher education.

It has been an honor serving you all for the past three years throughout various positions within ASI. This role has given me the great opportunity and privilege to serve and advocate for students at Sacramento State and across the California State University system. There has been so much I have been able to learn about myself and others. I have cherished every moment of it.

With that, I leave you with the one quote I live by...

"The time is always right to do right"
Dr. Martin Luther King Jr.

In Service,
Samantha A. Elizalde

Internal Committee Accomplishments

Lobby Corps

This is my fourth and last year in Lobby Corps and I have learned so much from it. This academic year we taught members how to lobby successfully and how the legislature impacts us as students. We have been able to take stances on various bills and recommend stances to the ASI Board.

University Committee Accomplishments

Administrative Council

Administrative Council met once a month and was composed of all administrators around campus. As the only student in the meeting it was my job to collect crucial information to relay to students, but also share the student perspective. This space was used to give an update to all things going on around campus; from events to initiatives.

Alcohol Advisory Council

Alcohol Advisory Council brought awareness around issues of drugs and alcohol. They held few meetings, but were very informational throughout the semester.

Sacramento State Alumni Association

The Alumni Association worked a lot on engaging with alumni and moving back to in person operations. I got to play a part in the revision of the mission, vision, and values for the board. They were very welcoming and always valued the student perspective. Make sure to claim your free alumni membership here:

COVID-19 Task Force

This task force played a crucial part in having discussions around decisions that will be made in terms of COVID and operations. I made sure to gather student opinion and present it to the group for them to take into consideration.

Critical Response Team

This committee met whenever there was a critical event that needed immediate response.

Instructionally Related Activities (IRA Committee)

As chair of the IRA committee it was great to be a part of allocating these funds to various deserving programs. This year we had \$640,000 to allocate.

Intercollegiate Athletic Advisory Committee

The IAAC was the best place to get updates about how our athletic department, sports, and student athletes were doing. It was amazing to see the support athletics provides to our student both professionally and academically.

Strategic Planning Taskforce

Every five years Sac State needs to revise their strategic plan and submit it to the Chancellors Office. Due to COVID it has been pushed back a few years. Through this committee we have been able to revise the strategic plan along with our mission, vision, and values. We are set to have a completed strategic plan by the end of the semester and after will create implementation committees to carry out the strategic plan.

Student Fee Advisory Committee

The committee met through the semester to review student fees and determine which will receive audits. We also went over all fee proposals to determine a set of recommendations to send to President Nelsen. Once the audits were complete on the fees chosen we reviewed them and solidified our recommendations.

UEI Board of Directors

Some big projects of the UEI Board this year was approving the faculty and staff housing that will be coming near Sac State soon and the child care center for faculty and staff from Sac State, UC Davis medical, and SMUD. Another accomplishment is that they have pulled from any investments that contribute to the fossil fuel industry.

University Foundation Board

The Foundation Board has lead the On the Rise campaign this year and has received over \$230 million dollars in donations that will benefit our current and future students.

Police Advisory Council/ Steering Committee

The Police Advisory Council is a newly established committee that is a requirement through the Chancellors Office. I have been integral part of the creation and composition of the committee. Since it is new, they are still figuring out how it will be a part of the university. I have met many times with the steering committee to guide the committee of the whole. We had one full meeting where we went over the purpose of it. I look forward to seeing the future of this committee and what they accomplish.

AB 367 (Menstrual Equity for All) Task Force

Through this committee we were able to assess how we were going to execute AB 367 that required our campus to have free menstrual products in all women's and gender inclusive restrooms, and at least one men's restroom. I was able to play a part in the products we were going to provide and the locations they will be placed.

Clery Compliance Committee

This committee is to go over an updates regarding the Clery Act and ensure that we are in compliance. When we met we were able to give an overview of what the Clery Act is and what purpose the committee will serve.
