### **A Special Note to Our Hornets**

Hey Hornets,

Serving as your ASI Director of Business has been an absolute pleasure. I have been working hard to serve you in the best ways that I can. As I continue to do the work, I'd like to leave you with some advice and words of encouragement.

As someone who has seen the benefits of getting involved on campus I urge you all to explore your interests with student Clubs & organizations, start building your network, and to work on your professional brand.

Continue to push forward in your academics and strive for success, but also start to think ahead for what the future might hold. You don't have to have it all figured out, (trust me I don't have it figured out) but it's always better to start making steps toward the life that you dream for yourself.

Lean on your peers for shared learning, visit your professors' office hours, explore campus departments and programs, and tap into all the amazing resources that our university provides.

I encourage you all to reach for the stars, but I also recommend that you take care of yourself this semester and check on your friends to see if they're doing okay. We are all on this journey called college together.

Lastly, I'd like to leave you with a quote.

"You can't connect the dots looking forward; you can only connect them looking backwards. So you have to trust that the dots will somehow connect in your future."- Steve Jobs
