News:

Happy October!

This month has been an eventful one with planning my kickoff event and attending my committees and events. I am also in the process of forming admission criteria ideas to the Nursing Program and am involved in outreach of other majors coming and doing presentations at the FYE.

Committee Updates:

Student Health Advisory Committee –

Working on analyzing data from 2017 about the eateries on campus. The committee redefined their mission statements and working on increasing participation in campus.

The Executive Safety Committee –

This month's meeting was full of safety updates and ideas for improving the safety of the campus. Bike trails are in the process of being examined. Some are out of the direct jurisdiction of Sac State, but it is important to know about because of the large amounts of students and faculty who use these paths to come to the campus.

Health and Human Services Joint Council

Kickoff is basically planned! November 13th in the Library Quad and ironing out the last details and working on getting more clubs involved.

Strategic Priority Updates:

Trying to get members of my committees involved with green team and the food pantry. Working with ECS to provide professional workshops for their students in the FYE. Spreading the word of voter engagement. Potentially host a voter information workshop in the FYE? Helping SHAC with outreach by attending the HHSJC Kick off.

Events/Calendar:

- *September 26th attended SHAC meeting*
- *September 27th hosted a Nursing Workshop in the FYE*
- *October 2nd met with Dean of HHS*
