News:

Happy September!

It is an honor to be serving as the Director of Health and Human Services for this academic year. I am beyond grateful and excited to be representing the students, faculty, and organizations under the College of Health and Human Services.

Already in this position, I met with my Dean before classes started, and attended an HHS Staff and Faculty event to meet professors in all departments. I am still working on getting settled in, and I would love to meet with anyone with tips or advice regarding my position.

Committee Updates:

Student Health Advisory Committee –

Great first meeting, I am the only new person added to the committee as of last meeting, so I was caught up to speed very fast. I invited them to send a representative to my Joint council meeting on October 3rd.

The Executive Safety Committee –

Very nice first meeting, talked about ways to discourage smoking on the perimeters of campus specifically around the Riverfront Center.

Student Wellness and Safety Committee –

Good first meeting. Got up to speed from previous members and am looking forward to exploring more ways to provide students with a comfortable and safe learning environment.

Strategic Priority Updates:

Working at bringing an organization to come speak for Health and Human Services. Also working on bringing nursing alumni to speak for the transition from degree to employment. Have already increased the amount of health related workshops in the FYE program since last semester.

Events/Calendar:

- *August 14th met with Dean of HHS*
- *August 22nd attended an HHS Faculty meeting with Dean*
- *August 22nd attended President's address*
