

Report to the ASI Board of Directors

Board Meeting Date: April 23, 2025

Submitted by Margaret Hwang (Vice President for Administration/CFO Designee)

1. Instructionally Related Activities (IRA) Applications

The IRA Advisory Committee is currently reviewing 41 applications, reflecting an increase from 32 submissions last year. This growth indicates heightened interest and engagement in IRA-funded opportunities across campus. Funding recommendations for co-curricular IRA programs will be sent to the President in mid-May.

2. Student Fee Advisory Committee (SFAC)

SFAC has convened twice in the past two weeks to review audit findings on selected student fees and to evaluate a proposal for a Student Success Fee. The committee's recommendations and considerations will be forwarded to the University President for review and potential action.

3. Fall 2025 Registration

Registration for Fall 2025 opened on Monday, April 21. Please encourage your constituents to review their accounts and resolve any Spring 2025 charges or holds prior to their registration date to avoid delays.

4. Hornet sign being installed in front of north entrance flag poles. This will be a fun spot to take graduation photos. Thanks to the Facilities Management team for getting the sign installed expeditiously!
