News:

Hey Hornets!

Hope your midterms are going well. Stay on top of all the projects and assignments as the semester is coming to an end.

The date for registration for classes is already up on your student center. So make sure to meet an academic advisor in the career center or your major advisor, and have your classes for next semester in your shopping cart.

This month, there were many ASI events, including Kick-off events of many Directors. I hope a lot of you attended those events and were able to gain more knowledge about the resources. My main focus for this month was my strategic priority 1.6.2 which revolves around the carpool application. I had multiple meetings and we are still working on how we can make the carpool application work for the CSUS students.

The river-clean up that was planned by Samantha was a great success. So, shout out for Samantha, Peak Adventures, and all the volunteers who made it possible.

I am really glad that some first year students are coming during my office hours or having appointments to work on their resumes, or to do some career exploration. Also, I was able to meet a lot of students

during the class presentations and it was a great chance to tell first year students about the resources that ASI has to offer.

Again, as the semester is coming to the end, please come meet me if you are having any troubles, with classes or registering for classes. And if you are applying for jobs, I will be more than happy to work on your resume with you.

Study hard! And all the best for your finals.

Take care of yourself. Practice some self-care, don't just keep on studying 24/7.

Committee Updates:

Sacramento State Sustainability Steering Committee

First Meeting November 22, 2019

ASI Memorial Scholarships Committee

Received access to the applications on Friday, October 25, 2019. Graded the applications and sent back the graded scholarships on Wednesday, November 6, 2019.

Strategic Priorities Updates:

1.6.2 Check feasibility of a carpool application for CSUS students to promote carpool while maintaining security.

Did not receive any data from WAZE yet. Probably will get some numbers in the spring semester. Checking feasibility by checking the expenses of incentives. Still deciding on the number of students the incentives can be given or the ways that the incentives will be provided.

4.1.3 Investigate current strategies being used by departments to support career/academic success

Met Dr. German, the strategies that focus on the academic and career success of the undeclared students include First Year Experience program, the Career Center (for career exploration), and the Focus2Career Application – a tool to help with career exploration.

4.2.1 Educate Board regarding SMART planner usage

Attended the Smart Planner Workshop during the Working Board Meeting

Events/Calendar:

October

28 Meeting with Sandra

31 Attended NSM Kick-off Event

31 ASI Salsa Competition

November
