b. Discussion of ASI Scholarships

This semester we did not receive any applicants for the Armed Forces scholarship. Historically we have not received many applicants for that scholarships. It ranges from 0-6 being the most we have received since its inception. For ASI scholarships we have received a large number. The questions asked impacts the number of applicants. Has the Veteran's Center reached out to the students who utilized the center and be sure they are sharing with students? We may want to reconsider naming the scholarship to something more familiar. The advertisement needs to be more specific to the variety of scholarships available. The Vice President of Finance has created legislation to redistribute the scholarship monies to a scholarship that had applicants for this semester to make sure the budgeted monies are utilized. Possibly consider an Instagram story regarding the Armed Forces scholarship. The Vice President of Finance will work on legislation to rename the scholarship for the spring semester.
