There will be a focus group in the next month comprised of 5-10 students. All feedback is due by June 15.

-New programs include the potential introduction of Climate Change and Climate Justice classes. New plan for Zero Waste with Bin centralization, composting bins, and expanding Bac Yard. Also the possibility of Restore, a thrift store at Sacramento State.

- Committee was interested in fossil fuel divestment, which sustainability will be discussing.

B. Feedback on Earth Day Event

Informative, good turnout, requests to record future virtual events if the speakers give their consent and expand marketing to include honors program. Another idea is to include a poll/question to help gauge audience understanding of topic and frame the questions to the speakers.
